

SAMBHU PRASAD VERMA

B.Tech | Full-Stack Web Developer | Competitive Programmer

✉ sambhufirst11@gmail.com 📞 +91 77889 27577 📍 Bhubaneswar, Odisha 🔗 LinkedIn 🐙 Github

Profile

Currently pursuing a B.Tech in Computer Science and Engineering at the International Institute of Information Technology (IIIT), Bhubaneswar. As a **Full-Stack Developer** with a builder's mindset, I specialize in **scalable architectures**, **modern web frameworks**, and **end-to-end product delivery**. Proficient in the complete **Software Development Lifecycle (SDLC)**, I prefer to build **complex backend systems** from scratch for maximum control and performance. I am an active **competitive programmer** with a strong analytical foundation in **Data Structures and Algorithms**, alongside a keen technical curiosity extending to **low-level computer architecture** and **Linux system administration**.

Technical Skills

Languages & Runtimes

JavaScript (ES6+), TypeScript, Java, C++, Python, Bun, Node.js

Databases & Architecture

PostgreSQL, MySQL, MongoDB, Drizzle ORM, System Design, RESTful APIs

Tooling & UI

Vite, Tailwind CSS, GSAP, Shadcn UI, Chakra UI, HTML5, CSS3, pnpm/npm

Frameworks & Libraries

React, Next.js (v15), Fastify, Express, TanStack (Query, Table, Router), LangChain, LangGraph

Security & Auth

JWT, OAuth2, NextAuth.js, Clerk, CORS, RBAC (Role-Based Access Control)

DevOps & OS

Git, GitHub, Linux, Deployment, Unit Testing, Debugging

Projects

IMS.proc , High-Performance Inventory System

- Architected a **robust** inventory management system utilizing **Next.js 15**, **Fastify**, **PostgreSQL**, and **Drizzle ORM** to ensure rapid data handling and a **scalable** end-to-end **architecture**.

SEISMIC.IO , Advanced Tectonic Surveillance

- Built a specialized TypeScript-based web application focused on **processing** and **visualizing real-time** advanced **tectonic** surveillance data.

AI-Job-Tracking , AI-Powered Career Management Platform

- Developed an AI-powered job tracking platform leveraging **LLM integrations**, **workflow automation**, and **analytics dashboards** to streamline application management and career insights.

COSTLY , Habit Analytics & "Life-Tax" Tracker

- Built a full-stack habit tracker with **Next.js 15** and **PostgreSQL** that calculates the **hidden time and money** costs of your daily **routines** while dynamically **visualizing your progress** toward personal **goals**.

AI Resume Builder , Intelligent Resume Generation Platform

- Created an AI-driven resume generation platform that utilizes **LLM-powered content optimization** and **dynamic PDF generation** to help users craft ATS-friendly resumes.

Other Projects

- Built projects including **TARS Website**, **Finance Dashboard**, **Job Posting and Searching Platform**, and **Heart Stroke Prediction**, gaining experience in **team collaboration**, **data visualization**, **machine learning**, **full-stack development**, and modern technologies such as **React**, **TypeScript**, **Node.js**, **PostgreSQL**, and **AI integrations**.

Competitive Programming & Extracurriculars

LeetCode

Solved **500+ problems** (Max Rating: **1567**); consistently active in weekly contests and algorithmic challenges utilizing C++, Java, and Python.

CodeForces

Solved **200+ problems** (Rating: **1200+**); regular participant in **Div-2/Div-3** rounds, focusing on speed and accuracy.

How I add value

Builder's Mindset: Rapidly ship high-quality, full-stack features, leveraging custom architectures for maximum optimization.

Design Communicator: Translate complex UI/UX designs and system architectures into clean, production-ready code.

Analytical Problem Solver: Apply competitive programming DSA expertise to solve complex, rigorous technical challenges.
