

SAMBHU PRASAD VERMA

B.Tech | Full-Stack Web Developer | Competitive Programmer

sambhufirst11@gmail.com +91 77889 27577 Bhubaneswar, Odisha LinkedIn Github Portfolio

Education

Bachelor of Technology (B.Tech.) 09/2024 – Present
INTERNATIONAL INSTITUTE OF INFORMATION TECHNOLOGY, BHUBANESWAR
Major: Computer Science and Engineering
Expected Graduation: 2028
Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks
CGPA: 8.31

Technical Skills

Languages & Runtimes JavaScript (ES6+), TypeScript, Java, C++, Python, Bun, Node.js	Frameworks & Libraries React, Next.js (v15), Fastify, Express, TanStack (Query, Table, Router), LangChain, LangGraph
Databases & Architecture PostgreSQL, MySQL, MongoDB, Drizzle ORM, System Design, RESTful APIs	Security & Auth JWT, OAuth2, NextAuth.js, Clerk, CORS, RBAC (Role-Based Access Control)
Tooling & UI Vite, Tailwind CSS, GSAP, Shadcn UI, Chakra UI, HTML5, CSS3, pnpm/npm	DevOps & OS Git, GitHub, Linux, Deployment, Unit Testing, Debugging

Projects

- AI Resume Builder** , Intelligent Resume Generation Platform
- Built an AI-powered resume generation platform that uses **LLMs** to create ATS-friendly resumes with dynamic PDF export. Supports **5+ resume templates**, **10+ customizable sections**, and generates resumes in **under 5 seconds** for a seamless user experience.
- COSTLY** , Habit Analytics & "Life-Tax" Tracker
- Developed a habit tracking application using **Next.js 15** and **PostgreSQL** that estimates the hidden **time and money costs** of daily habits. Features **interactive analytics dashboards**, progress tracking, and visualizes **12+ monthly insights** to help users make data-driven decisions.
- AI-Job-Tracking** , AI-Powered Career Management Platform
- Created an AI-powered job tracking platform with **LLM integration** to organize applications, automate repetitive tasks, and generate career insights. Supports **5+ application stages**, **resume-specific notes**, and **real-time analytics dashboards** for efficient job management.
- IMS.proc** , High-Performance Inventory System
- Designed and developed a scalable inventory management system using **Next.js 15**, **Fastify**, **PostgreSQL**, and **Drizzle ORM**. Implements **role-based access control**, **batch inventory management**, and **10+ core inventory operations** while maintaining a modular and scalable architecture.
- SEISMIC.IO** , Advanced Tectonic Surveillance
- Built a TypeScript-based web application for processing and visualizing real-time tectonic surveillance data. Integrates **interactive geospatial visualizations**, supports **multiple live data sources**, and provides **real-time monitoring dashboards** for efficient seismic analysis.

Competitive Programming & Extracurriculars

- LeetCode**
- Solved **600+ problems** (Max Rating: **1578**); consistently active in weekly contests and algorithmic challenges utilizing C++, Java, and Python.
- CodeForces**
- Solved **250+ problems** (Rating: **1200+**); regular participant in **Div-2/Div-3** rounds, focusing on speed and accuracy.
